## INTERESTS

## PROFESSIONAL PROFILE

“ I am that kind of proactive and dynamic people, who vibrate, who you do not have to push them, who you do not have to tell them to do things but they know what to do and they also do. Able to manage and balance both sides of my brain, this is demonstrated by my education supported both in the sciences and in the arts. All of this together with my positive attitude and the passion that I put in each project, make me a professional that every company would like to have under their belt.
